

# Common Core Math Unit Plan

<b>Unit Name:</b>	Solving Linear Equations	<b>Course:</b> CC Math 2	<b>Time Frame:</b> 3 Weeks + Pre-Unit Material
<b>Sub-Topics</b>	Solving Linear Equations Determining Types of Solutions in Linear Equations (One, None or Infinitely Many Solutions) Distributive Property Writing Equations from Words & Solve Real-World and Mathematical Problems		
<b>Big Idea</b>	<ul style="list-style-type: none"> <li>An approach or solution for many problems/scenarios in life can be found by modeling the situation with a linear equation and then solving it.</li> </ul>		

## Story Board/ Unit Flow
